Misael Taveras

Jacobo Majluta, Sto. Dgo, Dominican Republic
hello@taverasmisael.com / https://taverasmisael.com

Who I Am

I'm a young developer fascinated with the growing web technologies who loves eating Pringles and playing video games when no coding Javascript. You can find me and my work as @taverasmisael on Github, and any other social media.

What I've Done

Senior React Developer
Avantica Technologies, C.R

Aug. 2019 – Aug. 2020

- ® Maintain legacy code in Backbone.js while implementing new features in React.
- ® Do architecture for testing strategies and other features.

Senior Frontend Developer
Soluciones GBH, Santo Domingo, D. R.

Apr. 2018 – Oct. 2019

- ® Create dynamic websites (jQuery and React versions) for real estate brokers.
- ® Improve in 84% the speed to deliver in our team by implementing modern tools and processes.
- ® Work for various clients as lead Frontend expert.

Frontend Designer
Viral Rich, Santo Domingo, D. R

Apr. 2017 – Mar. 2018

- ® Optimise a CPA platform for publishers and advertisers around the globe. Supporting legacy code.
- ® Create dynamic and powerful landing pages.

What I've Studied

Computer Science, BE
Universidad O&M 2012-2017

Software Architecture Principles and Practices
Carnegie Mellon University 2019

What I know

- ® I can say my forte is Javascript with a taste for Functional implementations. With or without frameworks, being React the one I prefer the most.
- ® Work in development, functionality and optimisation rather than design, yet I can design using tools, languages and conventions such as SASS, BEM, OOCSS, ITCSS.

What I Can Contribute

- ® Optimize site loading, assets and overall site performance based on Lighthouse score.
- ® I love refactoring code, implement new things and follow guidelines.
- ® Create rich documentation and collaborative projects to improve team performance.
